

Roll on the Day

By Allan Taylor. A song about the effects of pneumoconiosis, a breathing disorder most often associated with coal miners that makes an old man unable to sleep, and he prays for the break of day.

As the dawn comes creeping, *roll on the day*.
Another night not sleeping, *roll on the day*.

Chorus

Roll on the morning, roll on the day,
I hear the old man softly praying,
Roll on the day.

Praying for another day, *roll on the day*.
But when it comes, it wastes away *roll on the day*.

Every night you fight for breath, *roll on the day*.
It hurts so bad, you wish for death, *roll on the day*.

<Repeat chorus>
